Notes:

10 June 2023

These comments - 40.5 years almost to the day after my first entry and my first SSB reception. Hard to believe.

- I joined the SARL as a listener member with 'callsign' ZS1-068!
- This log covers the time from my final year in school when I figured out how to receive SSB, through two years of national service up to my first year at University.
- Times in the log is in SAST, not UTC, if I remember correctly.
